I. INTRODUCTORY SECTION

December 18, 2009

To the Honorable Members of the Board of Public Education for Bibb County and Citizens of Bibb County, Georgia:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Bibb County School District (District) for the fiscal year ended June 30, 2009. This report, prepared by the Finance Division, conforms to generally accepted accounting principles as applicable to governmental entities.

The District's Administration maintains full responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the District as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included.

Mauldin & Jenkins, Certified Public Accountants, LLC, have issued an unqualified ("clean") opinion on the Bibb County School District's financial statements for the year ended June 30, 2009. The independent auditor's report is located at the front of the financial section of this report.

Readers of this report are encouraged to consider the information presented in this letter of transmittal in conjunction with additional information presented in the Management's Discussion and Analysis, beginning on page 3.

PROFILE OF THE BIBB COUNTY SCHOOL DISTRICT

The Bibb County School District is a political subdivision of the State of Georgia, the boundaries of which are coextensive with the territorial limits of Bibb County. The District is separate from and legally and fiscally independent of the Board of Commissioners of Bibb County and all other political subdivisions in the state. The District is the only public school district in Bibb County and is vested, pursuant to constitutional authority, with the power to conduct a system of public education within its boundaries. The District operates public schools in unincorporated portions of Bibb County and in the incorporated cities of Macon and Lizella, Georgia.

The Board of Public Education for Bibb County (Board) is the official governing body of the District and as such is responsible for the operation of all public schools within Bibb County. Annually, the Board elects a President, Vice-President, Treasurer and Secretary. The Superintendent is appointed by the Board for a term that is determined by the Board. As its Chief Executive Officer, the Superintendent has general supervisory and administrative responsibility for all departments and personnel of the District. The Georgia Constitution provides that the management and control of the School District shall be under the Board of Education. The eight elected Board members have policy and decision-making authority.

The Bibb County School District embraces a long held tradition of excellence in education and is committed to

providing achievement and performance for every school, for every classroom, and for every child. A pervasive belief within this system of schools is that each student, regardless of socio-economic status, race, neighborhood, or family structure, deserves an education that will establish a foundation for life-long success. Student enrollment in October, 2008 was almost 25,000, about the same as the prior year. Almost 75% of our students receive free and reduced price lunches. The District employs almost 3,800 employees, including over 1,800 teachers. It is the responsibility of each employee within the District, regardless of job title, to do his/her part to provide a thorough and efficient educational program for all students. Through collaborative efforts, District employees ensure that all pre-kindergarten through twelfth grade students attending Bibb County schools are provided a high quality education in a safe and comfortable environment and that human and technological resources are effectively used in preparing graduates for post-high school objectives. The Bibb County School District recognizes its obligation to the greater community to create an educational system that will encourage community growth and enhance the quality of life for all citizens.

The standard curricula provide a solid educational foundation for the students served in our twenty-six elementary, seven middle, and seven high schools. Included in these numbers are three elementary, one middle, and four high school magnet programs as well as one high school offering career training opportunities. Students from throughout the District may apply to attend any of the magnet schools. Elementary magnet offerings include math and science, fine arts, and communicative arts. At the middle school level, students may apply for attendance at the District's fine arts magnet program. High school students have magnet opportunities that include the International Baccalaureate Program; fine arts; health/science; law, government, and justice; and pre-engineering. Currently the District sponsors two America's Choice Schools at the elementary level and two at the middle school level. These numerous opportunities allow families school choice based upon student interest, talent, and need.

Additionally, there are three specialty programs designed to serve specific student populations. The *Butler Early Childhood Center* serves regular pre-kindergarten and kindergarten students along with special needs students in collaborative environments. *Elam Alexander Academy* is a community-based delivery system that serves severely emotionally disturbed/behavioral disordered students and students with autism from Bibb County as well as six surrounding counties. Students who have severe or excessive code of conduct violations may be assigned, through the evidentiary hearing process, to the *Joseph Neel Academy*.

Other highlights of the Bibb County School District include:

Gifted Programs
System-wide Special Education Instruction
Advanced Placement and Pre-Advanced Placement Programs
21 st Century Classroom Technology
Instruction of English to Speakers of Other Languages
School House Health Services
Mentors and Tutoring Programs
After School Programs
Technology/Career Education Programs
Apprenticeship Programs
Athletics and Physical Education
•

MAJOR INITIATIVES

<u>Organizational and Instructional Initiatives</u> The following initiatives were implemented or expanded during the FY2009 school year:

Differentiated Instruction training for all teachers
Improving Student Achievement through Effective Co-teaching
Effective Use of Assistive Technology in Accessing the Curriculum
Classroom Management and Behavior Analysis and Intervention
Graduation First (Drop-out Prevention Project)
Continued Early Intervention Services

	Georgia Leadership Institute for School Improvement (emphasis on achievement of Students With Disabilities)
	De-escalation (Behavior)
	Early College School
	Systemwide Implementation of Character Education Program
	Assessment for Learning training for school administrators
	Revised Discipline matrices for all schools
	Addition of Southern Regional Education Board "Making Middle Grades Work" program at the middle school level
	Continued expansion of AP (Advanced Placement) and Pre-AP programs
ō	Continued rollout of the Georgia Performance Standards to include new standards in
	Math (Year II - grade 9) and Social Studies (Year II - grades K-5).
	Intensive training for new Math I program for high school math teachers
	Highly aggressive teacher recruiting practices
n February, 200 mplemented in 2	comprehensive school redistricting plan was submitted to the Bibb County Board of Education 7. The proposed redistricting plan will be accomplished in three phrases. Phase I was 007-2008, Phase II in 2008-2009, and Phase III will be implemented in 2009-2010. The plan accomplish the following purposes:
	Establishing consistent grade patterns in all elementary, middle and high schools
	(Pre-K-5; 6-8; and 9-12)
	Reducing variances between school capacity and school enrollment
	Realignment of school feeder patterns to accommodate new schools, school
	additions, and changes in elementary attendance zones
	Decreasing the number of mobile units used for instructional purposes, thereby
	placing more students in permanent classrooms
	Closing low enrollment schools
	Discontinuing the use of old and obsolete school buildings.
the Balanced Sco to the establishm	ment Oversight Committee (PMOC) Identifying project management as a tool to support precard and to achieve the most pressing goals that have been established for the District led tent of the Project Management Oversight Committee in mid-FY2008. The Committee has be each project through the process in a timely fashion and is beginning to see the fruits of its
The follo	wing 8 goals were adopted by the Board of Education:
	Improve Student Academic Performance
	Improve Student Attendance
	Improve Student Discipline
	Provide Comprehensive Alternative Education Program
	Improve School Leader Performance
	Improve Teacher Quality and Performance
	Improve Internal Communication
	Improve Pupil Transportation services

The 2005 Capital Improvement Program

The District is now in its fourth year of the 2005 Capital Improvement Program. Over the course of the program, there have been steep increases in construction costs as well as a downturn in the economy which has generated the need for an overall review of the proposed projects. All projects have been substantially completed based upon available funds; we are now in the debt repayment phase. It remains the goal of the Board of Education to complete all projects originally proposed, in a manner that will provide excellent value and the highest performance schools for the students and citizens of Bibb County.

<u>High Performance School Facilities</u> In September 2008 the Bibb County School District was recognized for its many efforts toward producing high performance school buildings in its 2005 Capital Improvement Program.

A high performance school addresses a sustainable site, water management, energy efficiency, material use, and indoor environmental quality to save substantial energy costs, provide a better learning environment, promote healthy occupants, reduce absenteeism, increase teacher retention, and provide a more durable, lower maintenance building.

The District and community have already seen benefits and savings from these efforts, and they will continue to see them for many years.

- As of September 2008, more than 45,000 tons of demolition material had been crushed on-site and recycled. This process saved more than \$2 million in new material and landfill dumping fees.
- An estimated \$120,000 will be saved in maintenance costs a potential life-cycle savings of \$13.5 million by using the new finished flooring process on more than 150,000 square feet.
- An estimated \$160,000 will be saved in energy costs a potential life-cycle savings of \$18 million due to the use of high efficient lighting and mechanical systems.

<u>The 2010 Capital Improvement Program</u> Encouraged by the success of the 1999 and 2005 Capital Improvement Programs, on November 3, 2009 Bibb County residents once again voted in favor of a referendum extending a one-cent Special Purpose Local Option Sales Tax for capital improvements. The referendum approved a maximum collection of \$198.5 million over the period covering January 1, 2011 – December 31, 2015. Highlights of the 71 projects included in the new Capital Improvement Program are:

- 9 major school renovation projects
- □ Safety and security improvements
- □ 21st century instructional technology upgrades
- District-wide athletic facility construction and improvements

DEMOGRAPHICS

Ideally situated in the Heart of Georgia at the intersection of I-75 and I-16, Macon (Bibb County) offers convenient access to the entire world through the Hartsfield-Jackson International Airport and the port cities of Savannah, Brunswick, Charleston, and Jacksonville. A strategic location and small town attributes coupled with the amenities of a larger city, Macon is the place where people come from all over Middle Georgia to work; receive state of the art medical services; attend Medical, Engineering, and Law Schools; receive award winning information technology training; and shop at the second largest mall in Georgia as well as a newly offered outdoor mall in north Macon. Macon is internationally known for its annual Cherry Blossom Festival held each year in March. It is home to the Georgia Music Hall of Fame and the Georgia Sports Hall of Fame as well as the Tubman African American Museum which is Georgia's largest African American museum.

The region has long had a reputation for attracting manufacturing and industrial plants, but now other sectors and areas, such as the revitalized historic downtown, are starting to heat up. In the last three years, Bibb County has seen more than \$323 million in investments and 3,464 new jobs and continues to enjoy a high level of economic development activity, even in the midst of an economic downturn which exists throughout the county, the state, and the nation.⁵ Over the past twelve months, nine new and or/expanding industry projects were located with capital investments of \$293,000,000 and 680 new jobs created. Economic development efforts are a joint partnership between the Macon Economic Development Commission, a public/private entity, and the Macon-Bibb County Industrial Authority, a quasi-governmental entity.

At approximately 255 square miles, Bibb County is the 121st largest of Georgia's 159 counties. The county's population, which ranks 13th in the State of Georgia, is estimated to be 155,216¹ by the U.S. Census Bureau for the year ended 2008, a slight increase over the prior year. According to the Georgia Department of Labor, Bibb County had a 2009 civilian workforce of 75,376³ with a 10.2% unemployment rate versus a 6.7% unemployment rate in 2008.

A listing of the major employers of Bibb County, GA is provided in the schedules which follow:

Largest Private Employers ¹											
Employers	# of Employees										
GEICO	3,978										
Mercer University	1,340										
Coliseum Medical Center	1,250										
YKK (USA), Inc.	740										
The Boeing Company	505										

Largest Public Employers ¹										
Employers	# of Employees									
Medical Center of Central GA	4,000									
Bibb County School District ³	3,776									
City of Macon	1,400									
Bibb County	931									
US Postal Service	683									

Located in neighboring Houston County, Robins Air Force Base, the largest industrial complex in Georgia, employs a workforce of 21,223 civilian and military members with an annual federal payroll of \$1.6 billion. Other salaries to on-base service contractors total \$77.5 million. Robins has a significant economic impact on Bibb County. Approximately 2,300 Bibb County residents are employed at Robins and over 4,800 residents receive federal annuity retirement benefits totaling \$111.4 million. In 2008, private contracts generated \$5.8 million of value for Bibb County.⁴

ECONOMIC CONDITION AND OUTLOOK

Economic Downturn Since the fall of 2008, we have seen the collapse of some of our largest financial institutions including Lehman Brothers, AIG, Merrill Lynch, and other large banking institutions. We have seen the meltdown of the housing market as risky mortgages were sold that resulted in increased foreclosures. We have seen bailouts provided to various financial companies and the auto industry. As a result, we are experiencing difficult and complex times. Even before these difficult times, the Bibb County School District had been responding to state funding reductions each year since 2003. We have been confronted with seven consecutive years of funding shortfalls known as austerity reductions, and we anticipate further reductions as the state continues to recoup its deficits by passing the shortfall on to the local districts. These reductions continue to increase as the state continues to report a decline in state revenues due to the recessionary state of the economy. Lack of growth in our local tax digest has provided little or no increases in property tax revenues over the past few years.

Tax Anticipation Note (TAN) As a result of persistent reductions in state revenue funding caused by a depressed local, state and federal economy, the Bibb County Board of Education authorized the Superintendent to establish a Tax Anticipation Note (TAN) for an amount not to exceed \$14.5 million to cover payroll and other expenditures until the receipt of property taxes. The District's administration drew down \$5 million on September 29, 2009 and repaid the loan on October 30, 2009.

FINANCIAL POLICIES AND LEGISLATION

ARRA (American Recovery and Reinvestment Act) On February 17, 2009, the President signed into law the American Recovery and Reinvestment Act (ARRA). The purpose of this legislation is to create jobs in the

¹Source: U.S Census Bureau

²Source: GA Department of Labor

³Source: <u>District Records</u>

Source: Robins Air Force Base web site

⁵Source: Knight Center community web site

short term and make needed investments for the long term. The directives to state and local governments were to spend funds quickly to save and create jobs and to improve student achievement through school improvement and reform. We were also required to ensure transparency in reporting and accountability.

The Bibb County School District has been allocated the following in ARRA funding for FY2010: IDEA Preschool - \$178,984; IDEA - \$5,374,268; Title IA - \$12,381,877; Education for the Homeless - \$83,411; School Nutrition Equipment Grant - \$40,000. The State Fiscal Stabilization Fund (SFSF) program is a new, one time appropriation under the American Recovery and Reinvestment Act and the District was awarded \$2.3 million in FY2009 and \$6.2 million for FY2010. The District has hired a second grants accounting manager and a budget manager to ensure that the funds are appropriately expended and accounted for.

<u>Minimum Direct Instruction (65% Rule)</u> Georgia DOE Rule 160-5-1-.29 directs that "local school systems are required to either spend a minimum of 65% of their total operating expenditures on direct classroom expenditures, or increase their direct classroom expenditures as a percent of total operating expenditures by two or more percentage points over the previous fiscal year. Local school systems that are unable to meet the expenditure requirements may qualify for either an achievement waiver or a hardship waiver."

117 Georgia school districts did not meet the 65% requirement for FY2009. The Bibb County School District spent 61% of its total operating expenditures on instruction in FY2009, the same percentage as FY2008. The Bibb County Board of Education found that a substantial hardship existed because of the sharp decline in state QBE and grant funding allocated to the Bibb County School District; therefore a hardship waiver request was submitted to the GA DOE. This waiver will allow the district to allocate its available resources as needed to meet State Board of Education rules, regulations and standards and to carry out its mission to provide a high quality education for all Bibb County students in a safe and comfortable environment.

<u>Internal Controls</u> Management of the District is responsible for establishing and maintaining an internal control structure which is designed to ensure that the assets are protected from loss or theft and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principals. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of control should not exceed the benefit likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state, and local financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. The internal control structure is subject to periodic evaluation by management.

<u>Budgetary Controls</u> The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Public Education for Bibb County. Activities of the general, capital projects, special revenue, and debt service funds are included in the annual appropriated budget. The level of budgetary control is established by program within an individual fund. As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

The District is required to adopt a final budget no later than June 30th at the close of each fiscal year. An administrative budget review team aligns requests with priorities and proposed expenditures with anticipated revenues to arrive at a budget for consideration by the Superintendent and the Board of Education. In accordance with local board policy, a public hearing is held to provide an opportunity for community response to the proposed budget. The FY2009 Governmental Activities expenses amounted to over \$220 million.

AWARDS

<u>Certificates of Achievement and Excellence</u> The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the

Bibb County School District for its comprehensive annual financial report for the fiscal year ended June 30, 2008. This was the tenth consecutive year the School District has achieved this prestigious award. The Certificate of Achievement is a prominent national award recognizing conformity with the highest standards for preparation of state and local governmental financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for the current certificate.

ACKNOWLEDGEMENTS

We wish to express appreciation to Sharon Roberts, Director of Accounting; Kathy Gabriel, Financial Assistant to the CFO; and the entire Accounting Department without whose dedicated and committed efforts this report could not have been completed. We also acknowledge the active participation and professional support of Mauldin & Jenkins. Audit Partner Miller Edwards and the staff of Mauldin & Jenkins, particularly Hope Pendergrass, have been instrumental to the completion of this comprehensive annual financial report. We also extend appreciation to the members of the Board of Public Education for Bibb County for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

Respectfully submitted,

Sharon Patterson

Mrs. Lynn Farmer	At-large	6 ½	December 31, 2010
Ms. Susan Sipe	District 3	1/2	December 31, 2012

Function and Composition

All matters relating to education and operations in the Bibb County School District (District) are governed and controlled by the Board of Public Education for Bibb County (Board) as provided by Georgia law. The Board is legally responsible for the operation of the District and all related policy.

It shall be the purpose of the Board to provide education of the best obtainable quality for the residents of Bibb County within the limitations imposed by the taxpayer's ability to pay and his/her willingness to support the educational program. The Board shall be the representative, not only of the citizens of Bibb County, but of the State Board of Education as well.

The Board currently consists of eight elected members, six elected from single member districts and two elected county-wide. Successors to the initial elected members of the Board are elected in the general election conducted immediately prior to the expiration of the term of office for which they offer as a candidate. The newly elected board members take office on the first day of January following their election and serve for a term of four years and until their successors are duly elected and qualified.

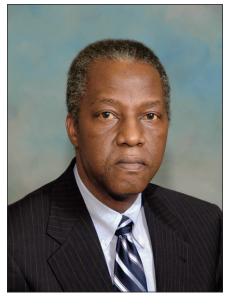

Regular board meetings are held on the third Thursday of each month at 6:00 p.m. usually in the Board Room at the Central Office but sometimes at selected schools. All meetings are open to the public. Special meetings may be called at other times by the Board President. At all meetings, a majority of the entire membership constitutes a quorum.

Mrs. Lynn Farmer At Large

Sharon Patterson Superintendent of Schools

Superintendent Sharon Patterson has more than 40 years of leadership experience in public education as a teacher, principal and system administrator.

Prior to her arrival in Bibb County in 1997, Mrs. Patterson held leadership positions in the Chapel Hill, North Carolina area and in metropolitan Atlanta, where she worked for 20 years. While a principal at East Cobb Middle School, the school was named both a Georgia and a Blue Ribbon National School of Excellence.

Sharon Patterson has attracted statewide recognition for her leadership role in promoting student academic achievement through systemic change. She serves on the Executive Committee and the Coordinating Board of the Georgia Leadership Institute for School Improvement. The public/private partnership provides unique leadership development programs that blend best practices from business and education.

She has received several awards. Among them she was named the 2006 Georgia Superintendent of the Year; she received the 2005 Georgia School Superintendents Association Bill Barr Leadership Award; the National Award of Merit from Boys and Girls Club of America for her community service; Woman of Achievement - Career Women's Network; Circle of Friends Award from the American Cancer Society for outstanding service and 2008 Relay for Life Superintendent of the Year for South Atlantic Division of the American Cancer Society. She was one of four state finalists for the 2006 National Superintendent of the Year.

Sharon Patterson is actively involved with Macon Economic Development Commission. She is the first Bibb County Superintendent to serve on the Commission. She works closely with the business community to make sure Bibb County Public School students are graduating with the skills needed by local industry. IBM invited Mrs. Patterson to study at the Harvard Business School for Change Leadership.

Mrs. Patterson served as 2006-2007 President of the Executive Board of Urban Superintendent's Association of America. She also serves on several other boards such as: Georgia Partnership for Excellence in Education; Greater Macon Chamber of Commerce; New Town Macon; Georgia Leadership for School Improvement – Advisory Board; Georgia School Superintendent's Association - Board of Directors; RESA Board of Control Chairman; the Macon-Bibb County Health Department; American Cancer Society; the Harriet Tubman Museum and is a trustee at the Macon Museum of Arts and Sciences.

Mrs. Patterson holds degrees from the University of Missouri in Columbia and the University of Missouri in St Louis. She also has a six year Specialist Degree from the State University of West Georgia.

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Education of the Bibb County School District Macon, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Bibb County School District** as of and for the year ended June 30, 2009, which collectively comprise the Bibb County School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Bibb County School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bibb County School District as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2009, on our consideration of the Bibb County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (on pages 3 through 11) is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bibb County School District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Bibb County School District. The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

INTRODUCTION

This management's discussion and analysis of the Bibb County School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2009. The intent of this management's discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for FY2009 are as follows:

In total, combined net assets increased \$26.6 million which represents an 8.6% increase over FY2008. This increase is primarily the result of the continued progression toward completion of the 2005 Capital Improvement Program.

- ► Combined general revenues accounted for \$108.5 million or 41.5% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$153.0 million or 58.5% of total revenues of \$261.5 million. Total combined revenues reflect a decrease from the prior year of \$6.3 million or 2.4%.
- The District had \$221.7 million in expenses related to governmental activities; only \$139.2 million of these expenses were offset by program specific charges for services, grants, or contributions. General revenues (primarily taxes) of \$108.4 million were used to provide for these programs.
- ► The District had \$13.2 million in expenses related to business-type activities; these expenses were offset by program specific charges for services, grants and contributions, and general revenues of \$13.9 million.
- Among major funds, the general fund has \$202.8 million in revenues (including transfers) and \$210.4 million (including transfers) in expenditures. The general fund balance decreased to \$11.5 million from \$17.7 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Bibb County School District has prepared its annual financial report using a combination of both government-wide financial statements and fund financial statements. The basic financial statements contain three components:

- ► Government-wide financial statements including the *Statement of Net Assets* and the *Statement of Activities* which provide a broad, long-term overview of the District's finances in a manner similar to a private sector business;
- Fund financial statements including the balance sheets that provide a greater level

of detail of revenues and expenditures and focus on how well the District has performed in the short term in the most significant funds; and

Notes to the basic financial statements.

Statement of Net Assets and the Statement of Activities. The Statement of Net Assets and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what remains for future spending. For proprietary funds, the statements offer short and long term financial information about activities the District operates like businesses, such as food services. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the Bibb County School District, the general fund is by far the most significant fund.

The purpose of the *Statement of Net Assets* and the *Statement of Activities* is to answer the question, "How did we do financially during FY2009?" These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, facility conditions, required educational programs, and other factors.

In the Statement of Net Assets and the Statement of Activities, the District has both governmental and business-type activities:

Governmental Activities. Most of the District's programs and services are reported here including instruction, general administration, maintenance and operations, student transportation, after school programs, principals' accounts and various others. Federal funds, state formula aid (QBE) and property taxes finance most of these activities.

Business-Type Activities. The District charges fees to help cover the services it provides. These activities include food service, stadium operations, and the District's wellness center.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District utilizes governmental, proprietary and fiduciary funds.

Governmental Funds. Most of the District's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and basic services it provides. Governmental fund information helps you determine whether there are more financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the *Statement of Net Assets* and the *Statement of Activities*) and governmental funds is reconciled in the financial statements. See Note #2 to the Financial Statements, pages 31-32. The District's major governmental funds are the General Fund and SPLOST Projects funds.

Proprietary Funds. Proprietary funds are activities that a school district operates similar to a business in that it attempts to recover costs through charges to the user. The two types of proprietary funds are the enterprise and internal service funds. Enterprise funds may be used to account for any activity or service that charges a fee to external users to cover the cost of operations, including cost of depreciation and debt service. The District operates its food service, stadiums and district-wide wellness center as enterprise funds. Internal Service funds account for goods and services that are provided to other funds in return for a fee to cover the cost of operations, including depreciation and debt service costs. The District's internal service funds include the central warehouse, workers' compensation, unemployment compensation, and dental insurance. Proprietary fund statements use the accrual basis of accounting similar to the district-wide statements.

Fiduciary Funds. The District is the trustee, or fiduciary, for assets that belong to others, such as the dependent care spending account fund, the medical spending account fund and school clubs and organizations within the principals' accounts. The District is responsible for ensuring that the assets reported in these funds are used only for intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use the assets to finance its operations.

FY2009 FINANCIAL ANALYSIS

The FY2009 total net assets of \$336.1 million represent a \$26.6 million or 8.6% increase over FY2008. As previously stated, this increase is primarily due to completion of the 2005 Capital Improvement Program construction projects. A detailed listing is included in the Letter of Transmittal. See the following tables for schedules of net assets and changes in net assets.

TABLE 1 STATEMENT OF NET ASSETS (in thousands)

Net Assets, beginning of year		293,627		270,012		15,883		15,737		309,510		285,749		23,761	8.3
Net Assets, end of year	\$	319,523	\$	293,627	\$	16,571	\$	15,883	\$	336,094	\$	309,510	\$	26,584	8.6

Governmental Activities. You will note that Instructional program expenses of \$186.5 million represent 84.1% of the total. The next most significant program expense is Maintenance and Operations which totals \$17.5 million and 7.9% of the total. Interest expense of \$2,665,569 represents only 1.2%. Interest expense was primarily attributable to the 2005 and 2006 General Obligation Bond Issues as well as the 2004 Revenue Bonds issued to lease/purchase the District's Central Office building. The District also had interest expense related to the lease/purchase of 17 school buses

Business-Type Activities. The most significant business-type activity of the District is the School Food Services division. The majority of its \$13.9 million revenue was derived from grants and contributions (\$11.6 million). The remaining \$2.3 million in revenue was primarily due to charges for meals served.

Cost of Program Services. The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental and business-

type activities, the combined total cost of services and the combined net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted federal and state entitlements. Although program revenues make up a majority (58.5%) of the combined revenues, the District is dependent upon tax revenues for government activities. Thus the FY2009 net cost of services (\$82.5 million) is covered by the \$71.6 million of local property taxes combined with \$30.8 million of Special Purpose Local Option Sales Tax (SPLOST) receipts.

GOVERNMENTAL FUND BALANCE

Total governmental funds had revenues and other financing sources amounting to \$252.2 million and expenditures and other financing uses of \$312.4 million. When combined with the \$1,091,763 insurance reimbursement for the May, 2008 tornado damage, the District's fund balance will have a net decrease of \$59.1 million. The total governmental FY2009 ending fund balance is comprised of the following:

TABLE 4 GOVERNMENTAL FUND BALANCES										
(in thousands)										
		FY2009		FY2008	,	VARIANCE				
General	\$	11,526	\$	17,740	\$	(6,214)				
SPLOST Projects * Other Governmental Funds		974 <u>7,667</u>		30,874 30,675		(29,900) (<u>23,008</u>)				
Total Fund Balances	\$	20,167	\$	79,289	\$	(<u>59,122</u>)				
* Other Governmental Funds include Debt Service, Capital Improvement and School Discretionary Funds.										

General Fund. The \$6.2 million decrease in the General Fund balance was primarily due to the fact that the District budgeted to use reserve funds to finance the FY2009 governmental operations.

SPLOST Projects Fund. The \$29.9 million decrease in fund balance is caused by these funds being used to finance the 2005 Capital Improvement Program expenditures.

Other Governmental Funds. The \$23 million decrease in fund balance is due to the financing of the 2005 Capital Improvement Program combined with the payoff of bonded debt used to finance these programs.

BUSINESS-TYPE ACTIVITIES - ENTERPRISE FUNDS - NET ASSETS

School Food Service. The \$675,083 increase in School Food Service net assets is substantially due to the combined effect of the increase in federal reimbursements offset by a decrease in local revenue derived from the sale of meals.

GENERAL FUND BUDGETING HIGHLIGHTS

- ► The District's budget is prepared according to Georgia law. The most significant budget fund is the General Fund.
- For the General Fund, the final budgeted revenues and other financing sources of \$209.51 million exceeded the original budgeted amount of \$209.37 million by \$0.14 million. This net variance of \$0.14 million was the result of the following:
 - \$1,399,644 increase in revenue due to a capital lease for the purchase of 17 school buses;
 - \$3,637,108 increase in local funding due to an increase in property tax receipts:
 - \$7,372,171 decrease in state QBE and grant funding as a result of drastic state funding cuts;
 - > \$2.878.468 increase in federal funding due to the receipt of ARRA:
 - \$525,000 decrease in interest income due to the decrease in interest rates coupled with a decrease in the funds available for investment; and
 - > \$121,730 increase in transfers.
- ► The final budgeted expenditures and other financing uses of \$217.3 million was less than the original budgeted amount of \$217.7 million by \$0.4 million.
- Overall, the FY2009 actual General Fund expenditures and other financial uses exceeded revenues and other financing sources by \$6,213,825 which was \$1,537,792 less than our final budget projections. Thus, the District's actual FY2009 actual ending fund balance exceeded projections.

CAPITAL ASSETS AND DEBT ADMINISTRATION

At the end of fiscal year 2009, the District had \$357.2 million invested in capital assets, net of depreciation. As stated in Table 5, this represents a \$59.3 million or 19.9% increase over FY2008. The increase was primarily due to new school construction and renovations related to the 2005 Capital Improvement Program. For more detailed information on Capital Assets, please see Note #7 to the Financial Statements on pages 35 and 36.

CAPITAL LEASES AND COMPENSATED ABSENCES

At June 30, 2009, the District had \$3.1 million in capital leases outstanding and \$1.4 million in compensated absences. The variance over the prior year is due to a \$1,399,644 increase due to a capital lease for the purchase of school buses coupled with an increase in compensated absences offset by a principal payment related to the 2004 Revenue Bonds. Table 6 summarizes capital leases and compensated absences outstanding:

CURRENT ISSUES

Economic Forecast. The District continues to face many challenges as we strive to fund initiatives necessary to support our vision of Achievement and Performance for Every Child, in Every Classroom, and in Every School. Significant cuts have been made to state education funding for the District over the past several years, primarily in these areas: (1) austerity reductions (\$29.6 million from FY2003 - FY2009); (2) the austerity reduction for FY2010 is currently at \$13,879,620 with the possibility of additional reductions; and (3) increased 5 mill share requirements (6.4 mills was required to offset the 5 mill share reduction in FY2009). The federal ARRA and Stabilization awards will offset some of the current reductions in state funding but these funds are temporary. Also, while the District did receive the HTRG (Homeowner's Tax Relief Grant) credit in June, which amounted to \$4,347,570, this appears to be the last year this grant will be funded by the state, barring a change in legislation. This will pass along an additional tax to the homeowners. Bibb County is in the process of its first property revaluation since 2001 and largely because of the number of property valuation appeals, collections are down compared to this time last year. addition to these funding shortfalls, we are also dealing with rapidly rising costs in the areas of salaries and benefits, textbooks, transportation and other operational costs. The District, however, is committed to the most efficient use of our financial resources and will strive to maintain the strong financial position we have enjoyed.

Tornado Damage. On May 11, 2008 a series of 15 tornadoes touched down in Georgia, including 10 across the Middle Georgia area. The most devastating tornado hit Bibb County at 5:50 a.m. with wind speeds between 111 mph and 135 mph and left Westside High School, Southwest High School, Rice Elementary School, Weaver Middle School, and Barden Elementary School with significant damage. The District suffered catastrophic losses amounting to approximately \$1.4 million as a result of these series of tornadoes with Westside High School suffering the most significant loss of \$1.1 million. This accounts for the \$1,091,763 Extraordinary Item (insurance reimbursement) listed in Table 2.

District Accreditation. A Quality Assurance Review team representing the Council on Accreditation and School Improvement (CASI) of the Southern Association of Colleges and Schools (SACS) made a Quality Assurance Review visit to the Bibb County School District on February 10-13, 2008. The review visit is the final step in the District Accreditation process which invites school systems to collaborate in reviewing the quality of the District's systems and their contributions to teaching and learning. To earn District Accreditation, a district must provide evidence that it meets the Standards for Accreditation; engages in a systemic and continuous process of improvement; and implements methods for quality assurance that provide for effective operations and functions. The Quality Assurance Review Team's report recommended accreditation "unanimously and without reservation" and included a commendation on the District's commitment of fiscal and human resources to instruction and continuous improvement. This was the District's first attempt at District Accreditation which lasts for five years.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Ron Collier, Deputy Superintendent – Operations/Chief Financial Officer, at the Bibb County School District offices located at 484 Mulberry Street, Suite 400, Macon, GA 31201. You may also e-mail your questions to Ron Collier at rcollier@bibb.k12.ga.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2009

Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ (59,122,319)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as	
depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	60,829,867
The net effect of the disposal of capital assets is to decrease net assets.	(1,504,250)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	988,187
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect	
of these differences in the treatment of long-term debt and related items.	24,457,876
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	37,731
Internal service funds are used by management to charge costs of various services and benefits to individual funds. The net revenue (expense) of certain activities of internal service funds is reported with governmental activities.	208,720

BIBB COUNTY SCHOOL DISTRICT NOTES TO FINANCIAL STATEMENTS JUNE 30, 2009

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity:

The Bibb County School District (the "District") was incorporated on August 23, 1872, and provides for a system of education for the children in the City of Macon, Georgia ("Macon") and Bibb County, Georgia ("Bibb County") as authorized by its charter. The District operates under a Board/Superintendent form of government. The eight member Board of Education ("Board") is elected by the public and the Board appoints the superintendent. During the year ended June 30, 2005, the citizens of Bibb County voted to give the Board the power to determine the millage rate at which school taxes are levied and to incur bonded indebtedness with voters' approval. In previous years, the District was reported as a component unit of Bibb County. However, beginning with the fiscal year ended June 30, 2005, the District is reported as its own primary government.

B. Government-wide and Fund Financial Statements:

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Basis of Presentation:

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis* of accounting, as are the proprietary fund and the fiduciary fund financial statements. Agency funds have no measurement focus; however, they use the accrual basis of accounting to recognize receivables and payables. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement* focus and the *modified accrual basis of* accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **SPLOST projects fund** accounts for the proceeds of a one percent Special Purpose Local Option Sales Tax. Funds are used for: building renovations; land and building acquisitions; and, construction of new educational and administrative facilities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. <u>Measurement Focus</u>, <u>Basis of Accounting and Basis of Presentation</u>: (Continued)

The District reports the following major proprietary fund:

The **school food service fund** accounts for the monies and commodities received from the federal and state governments and the School Food Service's cafeteria sales for the purpose of maintaining the District's breakfast, lunch, and snack programs.

Additionally, the District reports the following fund types:

The *capital projects funds* account for the acquisition of capital assets and construction or improvement of major capital projects such as construction of new schools.

The *internal service funds* account for warehouse operations, workers' compensation, unemployment compensation, and dental insurance reserve services that are provided to other departments or funds of the District on a cost-reimbursement basis.

The *private-purpose trust fund* accounts for resources devoted to the presentation of an award to a student and teacher each year at Appling Middle School. All resources of the fund, including any earnings on invested resources, may be used to support this purpose. There is no requirement that any portion of the resources be preserved as capital.

The **agency funds** are used to account for school activity funds related to school wide fundraising activities and to account for flex medical and dependent care for the employees of the District.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The District has elected not to follow subsequent private-sector guidance.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. <u>Measurement Focus</u>, <u>Basis of Accounting and Basis of Presentation</u>: (Continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's school food service program and the general fund. Elimination of these charges would distort the direct costs reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges for services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the District's internal service funds are charges for goods and services provided. Operating expenses of the enterprise funds and internal service funds include the cost of these goods and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Cash and Investments:

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the District to invest in: obligations of the United States, the State of Georgia and other political subdivisions of the State of Georgia, and other states; prime bankers' acceptances; repurchase agreements; and the Georgia local government investment pool (Georgia Fund 1). Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAm rated money market funds and is regulated by the Georgia Office of Treasury and Fiscal Services. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on a \$1 per share value. The fair value of the District's position in the pool is the same as the value of pool shares (\$1 per share value).

E. Receivables and Payables:

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year as well as all other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

F. On-Behalf Payments:

The State of Georgia makes certain health insurance and pension plan payments on behalf of the District for its employees. The District records these payments as both a revenue and an expenditure in the General Fund. The total of the on-behalf payments for the fiscal year ended June 30, 2009 was \$2,007,493.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. <u>Inventories and Prepaid Items</u>:

Inventories of the School Food Service Fund are stated at cost using the first-in, first-out method. Inventories of the Warehouse Fund are stated at cost using the weighted average method. Donated food commodities are recorded at fair value. The District utilizes the consumption method to recognize inventory usage. Under the consumption method, inventories are recorded as expenses when used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

H. Capital Assets:

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Asset	Years
Land improvements	20
Buildings	25-50
Equipment	4-20

I. Long-Term Obligations:

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. In the fund financial statements, governmental fund types report the face amount of debt issued as other financing sources.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. Compensated Absences:

Accumulated unpaid sick leave costs are not vested and are not accrued in any fund, but are recognized as expenditures or expenses, when paid. Accumulated unpaid vacation costs are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.

K. Fund Equity:

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

L. <u>Use of Estimates</u>:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The Governmental Fund Balance Sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$51,075,985 difference are as follows:

Capital leases payable	\$ (3,118,950)
Bonds payable	(45,500,000)
Plus: deferred issuance costs and unamortized premium	(482,616)
Accrued interest payable	(546,304)
Compensated absences	 (1,428,115)
Net adjustment to reduce fund balance - total governmental funds	
to arrive at net assets - governmental activities	\$ (51,075,985)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$60,829,867 difference are as follows:

Capital outlay	\$ 67,676,378
Depreciation expense	 (6,846,511)
Net adjustment to increase net changes in fund balances - total	_
governmental funds to arrive at changes in net assets of	
governmental activities	\$ 60,829,867

NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE FINANCIAL STATEMENTS AND FUND FINANCIAL STATEMENTS (CONTINUED)

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds." The details of this \$24,457,876 difference are as follows:

Principal repayments	\$ 25,500,694
Issuance of capital lease	(1,399,644)
Amortization of bond issuance costs and premium	356,826
Net adjustment to increase net changes in fund balances - total	_
governmental funds to arrive at changes in net assets of	
governmental activities	\$ 24,457,876

NOTE 3. LEGAL COMPLIANCE – BUDGETS

Budgetary Data. The District adopts an annual budget on a basis consistent with accounting principles generally accepted in the United States of America for the general fund, the debt service fund, and the Capital Improvements fund. The SPLOST projects fund adopts a project length budget. Proprietary fund budgets are prepared and utilized as a management tool to assess the operations of the enterprise and internal service funds. All annual appropriations lapse at fiscal year end.

The budget is a complete financial plan for the District's fiscal year, usually the school year, and is based upon careful estimates of expenditures and probable incomes. The District's budget consists of the educational plan, expenditures for the educational plan and sources and amount of revenue. Prior to the first Monday in June, the administration of the District prepares and submits a proposed budget to the Board for approval. After the budget has been tentatively approved by the Board, the budget must be advertised, in form and manner to be prescribed by the Board, at least one time in a newspaper of general circulation in Bibb County. Subsequent to this procedure, the Board shall revise the budget as necessary and adopt a final school budget.

NOTE 3. LEGAL COMPLIANCE – BUDGETS (CONTINUED)

The approved budget shall be certified and forwarded to the Georgia Department of Education for final approval. The budget is amended during the first six months and a mid-year review budget is prepared and approved by the Board. The budget is formally adopted at the program level and the legal level of the District's budgetary controls is the program level. Any amendments made after mid-year review may be approved by the District's management.

NOTE 4. DEPOSITS AND INVESTMENTS

Credit Risk. As of June 30, 2009, the District's investments were all rated AAA by Standard & Poor's.

As of June 30, 2009, the District had the following investments:

Investment	Maturities	Fair Value
Georgia Fund 1	41 day weighted average	\$ 33,035,200
US Treasury Strip	November 15, 2009	32,978
US Treasury Strip	November 15, 2010	32,650
US Treasury Strip	August 15, 2011	32,211
US Treasury Strip	November 15, 2012	30,894
US Treasury Strip	November 15, 2013	29,520
US Treasury Strip	November 15, 2014	28,231
US Treasury Strip	November 15, 2015	27,874
Georgia Extended Asset Pool	.97 effective duration	1,031,170
Mutual funds	N/A	1,158
Mutual funds	N/A	55
Total Investments		\$ 34,281,941
Investments are reported in the following activities	s:	
Governmental		\$ 28,168,379
Business-type		6,033,002
Fiduciary		80,560
-		\$ 34,281,941

Interest Rate Risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District's investment policy limits all operating investments to instruments that mature within one year. All non-operating investments are best matched with their cash flow needs, with investment life of no more than five years.

NOTE 4. DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial Credit Risk – Deposits. Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal and state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2009, the District's bank balance of \$6,892,433 was fully collateralized in compliance with state requirements.

Custodial Credit Risk – Investments. For investments, this is the risk that, in the event of the failure of the depository financial institution, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2009, the District was not exposed to custodial credit risk for investments.

NOTE 5. INTERGOVERNMENTAL RECEIVABLES

Intergovernmental receivables at June 30, 2009, for the District's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts are as follows:

			School	I	Nonmajor
		SPLOST	Food	I	Enterprise
	General	Projects	 Service		Funds
Intergovernmental Less allowance	\$ 22,820,440	\$ 3,994,772	\$ 2	\$	209,550
for uncollectibles	(2,197,770)	-	-		-
Net total receivable	\$ 20,622,670	\$ 3,994,772	\$ 2	\$	209,550

NOTE 6. PROPERTY TAXES

Bibb County bills and collects property taxes for the District. Property taxes are levied (assessed) on all taxable real, public utility and personal property (including vehicles) located within the County as of January 1st of each year. Assessed values for property tax purposes are determined by the Bibb County Board of Tax Assessors for all property except public utilities and motor vehicles. Assessed value is set at 40% of market value. The State of Georgia establishes values for public utilities and motor vehicles.

Real property taxes for 2008 were levied on August 26, 2008, and are due in two installments - the first payment was due October 17, 2008, and the final payment was due by November 17, 2008. Bibb County may place liens on property once the related tax payments become delinquent. The property tax receivable allowance is equal to 30% of outstanding property taxes at June 30, 2009.

Vehicle personal property taxes are due upon each respective payor's date of birth on an annual basis.

NOTE 7. CAPITAL ASSETS

Depreciation expense was charged to functions/programs of the District as follows:

Governm	ental	activities:

Instruction	\$ 5,721,532
General administration	168,110
Maintenance and operations	104,735
Student transportation	852,134
Capital assets held by the District's internal service funds are charged	
to the various functions based on their usage of the assets	 7,889
Total depreciation expense - governmental activities	\$ 6,854,400
Business-type activities:	
School food services	\$ 569,719
Other activities	 1,896
Total depreciation expense - business-type activities	\$ 571,615

NOTE 7. CAPITAL ASSETS (CONTINUED)

Internal service funds predominantly serve governmental funds. Accordingly, capital assets for the internal service funds of the District totaling \$477,854 with accumulated depreciation of \$419,144 are included as part of the above totals for governmental activities at year-end.

NOTE 8. LONG-TERM DEBT

Capital Leases. The District issued 2004 Lease Revenue and Refunding Bonds in the original amount of \$3,135,000 to: (a) renovate, improve and equip certain portions of the leased premises, (b) currently refund the Issuer's Lease Revenue Bonds, Series 1993A, and (c) to pay all expenses incident to accomplishing the foregoing. Under this capital lease, the District is required to pay base rentals directly to the trustee annually on September 30, in amounts sufficient to provide for payment of the principal and interest on the bonds on the ensuing interest payment date. The 2004 series Lease Revenue Bond carries a variable rate of interest with it. The rate is computed at a weekly rate, determined by the Remarketing Agent, having due regard for the prevailing financial market conditions for revenue bonds. The rate shall be computed on the first business day of each interest period. However, the bonds are not to exceed the lesser of (a) 12% per annum (the "Ceiling Rate") and (b) the maximum rate permitted by law. In connection with the issuance of the bonds, Bibb County has entered into an amended Guaranty Agreement dated September 1, 2004, (the "Guaranty") with the District and the trustee; pursuant to the Guaranty, Bibb County absolutely and unconditionally guarantees the obligation of the District to pay base rentals under the lease. The outstanding balance on the Series 2004 bonds at June 30, 2009, is \$1,850,000.

In 2009, the District entered into a lease agreement for the purchase of buses in the amount of \$1,399,644. The lease carries an interest rate of 2.99% and payments are due on the last day of each month until December 31, 2013. The lease agreement qualifies as a capital lease for accounting purposes (title transfers at the end of the lease term) and, therefore, have been recorded at the present value of the minimum lease payments as of the date of inception. The outstanding balance on the 2009 capital lease at June 30, 2009 is \$1,268,950.

The following is an analysis of assets under capital leases as of June 30, 2009:

	<u> </u>	Activities		
Buildings	\$	7,155,983		
Equipment		1,399,644		
	\$	8,555,627		

Covernmental

NOTE 8. LONG-TERM DEBT (CONTINUED)

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2009 are as follows:

Go۱	vernmenta l
	Activities
\$	683,115
	686,916
	693,759
	700,266
	550,456

	(195,562)
\$	3,118,950
	\$

General Obligation Bonds. During the year ended June 30, 2006, the District issued 2005 General Obligation Bonds in the original amount of \$56,000,000 to (a) acquire, construct, and equip new schools and related facilities including necessary furnishing, fixtures, and equipment, (b) renovate, extend, repair, and equip existing School District schools, facilities, and properties useful or desirable in connection therewith, (c) acquire, construct, and equip system-wide athletic facilities, (d) acquire, construct, and equip an Early Childhood Center, (e) acquire and install system-wide instructional and administrative technology, safety, and security equipment, (f) acquire school buses, vehicles, and transportation equipment, (g) acquire any necessary property therefore, both real and personal, and (h) pay any expenses incident to accomplishing the foregoing.

General obligation bonds consist of the following as of June 30, 2009:

Series	Coupon Rate	Maturities	Balance
2005	3.867% to 5.132%	2010 to 2011	\$ 45,500,000

NOTE 8. LONG-TERM DEBT (CONTINUED)

Annual debt service requirements to maturity for general obligation bonds are as follows:

	 Principal	Interest		Total		
2010 2011	\$ 25,500,000 20,000,000	\$	2,149,831 1,026,425	\$	27,649,831 21,026,425	
Total	\$ 45,500,000	\$	3,176,256	\$	48,676,256	

Long-term liability activity for the year ended June 30, 2009 is as follows:

	Beginning Balance	•		Ending Balance		Due Within One Year		
Governmental activities:								
Bonds payable	\$ 70,535,000	\$	-	\$ (25,035,000)	\$	45,500,000	\$	25,500,000
Plus unamortized								
bond premium	 1,354,631		-	 (562,426)		792,205		
Bonds payable, net	 71,889,631		-	(25,597,426)		46,292,205		-
Capital leases	2,185,000		1,399,644	(465,694)		3,118,950		612,255
Compensated absences	 1,202,091		1,073,939	 (847,915)		1,428,115		873,354
Governmental activities:								_
Long-term liabilities	\$ 75,276,722	\$	2,473,583	\$ (26,911,035)	\$	50,839,270	\$	26,985,609

There is \$5,133,225 of reserved fund balance available is in the Debt Service Fund to service the capital lease contractual obligations and 2005 and 2006 general obligations bonds.

For governmental activities, compensated absences are liquidated primarily by the General Fund.

NOTE 9. OPERATING LEASES

The School District, as lessor, leases excess space in its central office building (approximately 40% of the total square footage) to various private companies and accounts for these leases as operating leases.

The cost of the building, related depreciation and net book value of the central office building is as follows:

Cost of building	\$ 7,155,983
Accumulated depreciation	(1,841,661)
Net book value	\$ 5,314,322

Lease terms vary and extend through June 30, 2013. Rental revenues under these operating leases during the year ended June 30, 2009 were \$674,682. Minimum future rentals to be received under operating leases are as follows:

Year Ending June 30,		
2010	\$ 6	600,553
2011	4	116,973
2012	1	154,854
2013		76,202
	\$ 1,2	248,582

NOTE 10. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2009 is as follows:

Due to/from other funds:

	Due From		Due To		
<u>Funds</u>	Other Funds		Otl	ner Funds	
General Fund	\$	\$	646,319		
SPLOST Fund		-		36,401	
Nonmajor governmental funds	851,793			4,276	
Total governmental funds		944,390		686,996	
School Food Service		4,367		51,921	
Nonmajor enterprise funds		<u>-</u>		209,840	
Total enterprise funds	<u> </u>	4,367	' <u>'</u>	261,761	
	\$	948,757	\$	948,757	

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers:

<u>Funds</u>	Transfers In	<u></u>	Transfers Out		
General Fund	\$ -	\$	1,216,519		
SPLOST Fund	-		3,931,613		
Nonmajor governmental funds	4,757,595				
Total governmental funds	4,757,595		5,148,132		
Nonmajor enterprise funds	25,746				
Internal service funds	364,791				
	\$ 5,148,132	\$	5,148,132		

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 11. OTHER POST EMPLOYMENT BENEFITS

Georgia Retiree Health Benefit Fund

Plan Description. The District participates in the Georgia Retiree Health Benefit Fund ("GRHBF"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the State of Georgia Department of Community Health. GRHBF provides health insurance benefits to eligible retirees and their qualified beneficiaries. Pursuant to Title 45, Chapter 18 of the Official Code of Georgia Annotated, the authority to establish and amend the benefit provisions of the plan is assigned to the Board of the State of Georgia Department of Community Health. The Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for GRHBF. That report may be obtained from the Department of Community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

Funding Policy. The contribution requirements of plan members and participating employers are established and may be amended by the Board of the State of Georgia Department of Community Health. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election.

Participating state employers, including local Boards of Education, are statutorily required to contribute in accordance with the employer contribution rate established by the Board. The contribution rate is established to fund both the active and retired employee health insurance plans based on projected pay-as-you-go financing requirements. The combined rate for the active and retiree plans (pay-as-you go basis) for the fiscal year ended June 30, 2009 were as follows:

Period	Percentage of Covered Payroll
July 2008 - January 2009	18.534% of covered payroll for August - February coverage
February 2009	8.579% of covered payroll for March coverage
March 2009 - May 2009	3.688% of covered payroll for April through June coverage
June 2009	0.00% of covered payroll for July coverage

Currently, the state is requiring that local Boards of Education pay only on active employees. The District's contribution to the health insurance plans for the fiscal years ended June 30, 2009 and June 30, 2008, was \$14,477,059 and \$19,819,776, respectively, which equaled the required contribution. Currently, the State of Georgia has been making the remaining contributions to fund the pay as you go financing on behalf of all local Boards of Education (see Note 1 for discussion of on-behalf payments).

NOTE 12. RETIREMENT PLANS

<u>Teachers Retirement System.</u> Substantially all teachers, administrators, and clerical personnel employed by the District are members of the Teachers Retirement System of Georgia (TRS), a cost-sharing multiple employer public employee retirement system administered by the TRS Board of Trustees. TRS provides retirement and disability benefits, and death benefits to plan members and beneficiaries. Title 47, Chapter 3 of the Official Code of Georgia Annotated, assigns the authority to establish and amend benefit provisions to the TRS Board of Trustees. The TRS Board of Trustees issues a publicly available financial report that includes financial statements and required supplementary information for TRS. That report may be obtained by writing to TRS of Georgia, Two Northside 75, Suite 100, Atlanta GA 30318, or by calling 1-800-352-0650.

Covered employees are required by state law to contribute 5% of their annual covered salary to the plan and the District is required to contribute 9.28% of current covered payroll. Covered employees' contributions for the years ended June 30, 2009, 2008, and 2007, were \$6,237,355, \$6,098,573, and \$5,919,273, respectively. The District's contributions to TRS for the years ended June 30, 2009, 2008, and 2007, were \$11,648,664, \$11,354,435, and \$11,025,372, respectively, which equal the required contribution for each year.

Active members may retire and receive benefits after 30 years of creditable service regardless of age, or after 10 years of creditable service and reaching age 60. Upon retirement, an employee receives a retirement benefit, payable monthly for life. The amount is determined by multiplying 2% by the years of service up to 40 years. This amount in turn is multiplied by the employee's average monthly salary for the two highest paid consecutive years of service. Early retirement benefits are reduced by the lesser of 1/12 of 7% for each month the member is below age 60, or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the CPI, will be made in future years. Retirement benefits are payable monthly for life. Options are available for distribution of the member's monthly pension at a reduced rate to a designated beneficiary at the member's death.

<u>Public School Employees Retirement System.</u> Substantially all bus drivers, maintenance, custodial, and lunchroom personnel employed by the District are members of the Public School Employees Retirement System of Georgia (PSERS), which is also a cost-sharing multiple employer public employee retirement system. The Board of the Public School Employees Retirement System of Georgia issues a publicly available financial report that includes financial statements and supplementary information for PSERS. That report may be obtained by writing Public School Employee Retirement System, Two Northside 75, Atlanta, Georgia 30318-7778, or by calling 1-800-805-4609.

NOTE 12. RETIREMENT PLANS (CONTINUED)

PSERS provides service retirement, disability retirement and survivor's benefits for its members. A member is eligible for normal service retirement after 10 years of service and attainment of age 65.

A member applying for service retirement with 10 years of service and retirees between the ages of 60 and 65 receive a reduced benefit. Monthly retirement benefits paid to members are equal to eight dollars per month multiplied by the number of years of creditable service. Retirement provisions include death and disability benefits. Benefits are established by state statute.

Covered employees are required by state statute to contribute four dollars per month for the nine month school year. Unlike TRS, the District makes no contribution to PSERS. Total contributions from employees of the District made during the fiscal year ended June 30, 2009, totaled \$25,436.

The State of Georgia is required by statute to make an annual contribution to PSERS based upon an actuarial calculation. The state's contribution for employees for the fiscal year ended June 30, 2009 for District employees was \$128,391.

Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest.

There were 688 employees covered under PSERS for the year ended June 30, 2009.

NOTE 13. DEFERRED COMPENSATION PLAN

The District offers its employees a tax deferred annuity plan created in accordance with Internal Revenue Code Section 403b. The plan, available to all District employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional.

It is the opinion of the District's legal counsel that the District has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. The District believes these assets are not available to satisfy the claims of general creditors in the future.

NOTE 14. RISK MANAGEMENT

The District is exposed to various risks of loss for claims associated with torts; theft of, damage to and destruction of assets; errors and omissions; natural disaster; workers' compensation; unemployment compensation; and dental benefits.

The District is self-insured for workers' compensation, unemployment compensation, and dental benefits. Premiums are paid into internal service funds by user funds and are available to pay claims, claim reserves, and administrative costs of the program. These interfund premiums are recognized as revenue in the internal service funds. The premiums are calculated on the basis of the percentage of that fund's payroll to total payroll. Liabilities are reported when it is probable that a loss has been incurred and the amount can be reasonably estimated including amounts of claims incurred, but not yet reported. An excess coverage insurance policy covers individual claims in excess of \$500,000 loss per occurrence, up to the statutory limit. The District has not experienced any significant reduction in insurance coverage from the previous years nor has it paid any settlements in excess of insurance coverage in the past three years.

Changes in the balances of claims liabilities for the past two fiscal years for the funds for which the District is self-insured are as follows:

Workers' Compensation Fund	June 30, 2009		Jur	ne 30, 2008
Unpaid claims, beginning of fiscal year Incurred claims and changes in estimates Claim payments	\$	586,725 881,111 (1,005,954)	\$	388,419 966,534 (768,228)

NOTES TO FINANCIAL STATEMENTS

NOTE 15. COMMITMENTS AND CONTINGENCIES

The District is involved in a number of legal matters which either have or could result in litigation. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2009, may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

The District is committed under outstanding construction contracts in the Capital Projects funds in the amount of \$12,173,641. Construction contracts include new school construction and expansion and renovation of existing facilities.

NOTE 16. EXTRAORDINARY ITEM

On May 11, 2008, a tornado damaged some of the District's buildings. The District received \$1,091,763 in insurance proceeds during 2009 for damages incurred.

NOTE 17. SUBSEQUENT EVENT

On September 1, 2009, the District issued a tax anticipation note for cash flow purposes for an amount not to exceed \$14,500,000. The note had an interest rate of 1.23% with a maturity date of December 31, 2009. One draw, in the amount of \$5,000,000 was required to meet the cash flow needs of the District. The note was repaid on October 30, 2009.

Notes: Accrual-basis financial information for the School District as a whole is available back to June 30, 2002, the year GASB Statement 34 was implemented.

¹ Per Audited Financial Statements

Net assets are restricted for debt service for the 2004 Contractual Obligation, related to the financing of the Central Office Building and the 2005 and 2006 General Obligation Bonds.

³ Increase in assets is due to completion of 2005 Capital Improvement Program construction projects.

¹ Per Audited Financial Statements

Notes: Accrual-basis financial information for the School District as a whole is available bacl to June 30, 2002, the year GASB Statement 34 was implemented.

² Amounts to repay Bibb County for the 1998 General Obligation Bonds.

³ Prior to FY2004, Stadiums and Wellness Center were reported together as "Other activities."

⁴ The Extraordinary Item reflects an insurance reimbursement due to the District for tornado damage.

⁵ All charges for services in governmental activities are allocated to the instruction function.

⁶ Decrease in operating grants and contributions is due to a reduction in State QBE funding.

⁷ Decrease in instructional expenses is due to a decrease in the State Health Insurance rate.

¹ Per Audited Financial Statements

² Continual reductions in Capital Projects Funds are primarily due to increases in salary and benefits and decreases in overall funding thus resulting in less funding available for capital expenditures.

³ Several positions remained vacant during this fiscal year resulting in a large excess of revenues over expenditures.

The \$18.7 million decrease in Reserved Fund Balance is the net effect of a \$25 million increase in the Debt Service Fund, which will be used to cover the 1st principal payment due in March 2009 on the Series 2005 and 2006 Bond Issues, and a \$43.7 million decrease in the SPLOST Projects Fund caused by these funds being used to finance the 2005 Capital Improvement Program expenditures.

⁵ The \$6.2 million decrease in the General Fund balance was primarily due to the use of reserve funds to finance FY 2009 governmental operations

⁶ The \$53.6 million reduction from FY 2008 is due to the use of these funds to finance the 2005 Capital Improvement Program expenditures.

¹ Per Audited Financial Statements

Notes: The implementation of GASB 34 beginning with fiscal year ended June 30, 2002 significantly changed the presentation of revenues and expenditures of the School District. As such, the information for years prior to fiscal year 2002 is not available.

² Special Purpose Local Option Sales Tax (SPLOST) Revenue

³ FY2003 - FY2005 SPLOST Revenues recorded as state sources

⁴ Increase due to increase in state contributions caused by rising health insurance costs

⁵ FY2006 SPLOST Revenue recorded as local revenue

 $^{^{\}rm 6}$ Issuance of 2005 and 2006 General Obligation Bonds plus premiums on bonds

⁷ The Extraordinary Item reflects an insurance reimbursement due to the District for tornado damage.

The \$21.6 million net change in fund balance is the net affect of a (1) \$25 million increase in the Debt Service Fund, which will be used to cover the 1st principal payment due in March 2009 on the Series 2005 and 2006

Bond Issues; (2) a \$43.7 million decrease in the SPLOST Projects Fund caused by these funds being used to finance the 2005 Capital Improvement Program expenditures; and (3) a \$2.9 million decrease in the General Fund balance due to the District budgeting to use reserve funds to finance the FY2008

Decrease in Interest Revenue is due to the reduction in funds available for investment as we complete the 2005 Capital Improvement Program projects as well as the significant reduction in interest rates.

Notes: The county assesses property at 40% of actual value. Actual tax value is calculated by dividing assessed value (before exemptions) by 40 percent. Tax rates are per \$1,000 of assessed value. Information has been provided beginning with the year of implementation of GASB Statement 34, June 30, 2002.

¹ Source: Bibb County Tax Commissioner's Office

Total collections exceeded 100% in FY2002 and FY2003 because the figures included current and prior year collections as well as collections for properties not on digest (NOD). Over-collections are generally a function of under-collections in prior years, the changing values of motor vehicles and mobile homes, and property improvements that are added to the tax digest after its approval.

Notes

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the County. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Bibb County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

⁹ Includes Pre-Kindergarten through 12th Grade plus 114 students served by Residential Treatment Facilities

Substantial increase in the unemployment rate is due to the collapse of local, state, national and international (global) economies related to the downturn in housing, financial and other related industries.

Students housed in Residential Treatment Facilities

Grand Total

- ¹ Sixth grade classes at Bernd, Burdell/Hunt, Jones, and Danforth/King Elementary Schools moved to Appling Middle School effective with the 2005-2006 school year.
- ² Sixth grade classes at Brookdale, Carter, Lane, and Springdale Elementary Schools moved to Howard Middle School effective with the 2004-2005 school year.
- 3 Sixth grade classes at Bruce, Heard, Porter, and Skyview Elementary Schools moved to Rutland Middle School effective with the 2003-2004 school year.
- ⁴ Sixth grade classes at Heritage, Morgan, Riley, and Union Elementary Schools moved to Weaver Middle School effective with the 2004-2005 school year.
- ⁵ Bruce Elementary and Weir Elementary Schools began the process of merging during the 2003-2004 school year. During that school year, students in grades K-2 were housed at Weir and the students in grades 3-5 were housed at Bruce. During the 2004-2005 school year, all students were housed at the Weir facility while the Bruce facility was being completely rebuilt. For the 2005-2006 school year, Weir closed and the students moved into a newly constructed facility located on the Bruce Elementary School site.
- ⁶ Danforth Primary and King Elementary Schools merged effective with the 2005-2006 school year. King closed and the students moved into the Danforth Primary facility.
- Redding Elementary School closed at the end of the 2001-2002 school year. The students moved to the newly constructed Skyview Elementary School
- ⁸ Taylor Elementary and Tinsley Elementary Schools merged effective with the 2003-2004 school year. Tinsley closed and the students moved into a newly constructed facility located on the Taylor Elementary School site.
- 9 Ballard Hudson Middle School closed at the end of the 2002-2003 school year. The students moved to the newly constructed Rutland Middle School.
- 10 Southeast High School was closed at the end of the 2002-2003 school year. The students were moved to the newly constructed Rutland High School.
- ¹¹ Enrollment fluctuations caused by redistricting.
- ¹² New facility.
- New addition to facility.
- ¹⁴ Two new classes added at magnet school.
- ¹⁵ Four new classes added at magnet school.
- ¹⁶ Remodeling/renovations completed.
- ¹⁷ For the 2003-2004 and the 2004-2005 school years only, separate FTE counts were reported for the Renaissance Academy and the Teen Parent Center. During the 2005-2006 school year, the district reverted back to its prior practice of reporting these students at their home schools.
- ¹⁸ Students are counted at their home schools.
- ¹⁹ Source: District Records
- ²⁰ 2006-2007 was the first year of implementation of SB 618 whereby local districts received flow-through funding for students housed in residential treatment facilities located within the district.

SCHOOL DATA¹⁹ LAST EIGHT FISCAL YEARS

- ²¹ Hamilton School was closed and the students were rezoned to Hartley and Ingram/Pye. The Ingram/Pye students will be housed at the former Hamilton School facility during the two years of reconstruction of the Ingram/Pye facility.
- ²² McEvoy Middle School closed at the end of the 2006-2007 school year. The students were relocated to the newly constructed Ballard-Hudson facility.
- ²³ Pre-K students at the Butler Center were counted in their home schools in error; this was corrected in subsequent FTE reports.
- ²⁴ Sixth grade classes at Alexander II, Vineville Academy and Williams Elementary Schools were moved to Miller Middle School effective with the 2007-2008 school year.
- ²⁵ Southwest High School Vocational Building was demolished.
- ²⁶ Sixth grade classes at Burke, Hartley and Ingram/Pye Elementary Schools were moved to the Ballard Hudson Middle School effective with the 2007-2008 school year.
- New software was used in the computation of the square footage of each of the District's facilities as a part of the development process for the new Local Facilities Plan (LFP). The new software eliminated square footage for areas such as overhangs and provided a much more comprehensive and accurate accounting for the square footage at each facility and resulted in fluctuations in square footage from FY2008 to FY2009 in some facilities.
- ²⁸ Capacity for each facility is determined each year using a formula approved by the Board which factors in the number of permanent classrooms available at a school, the maximum class size requirements of the GA DOE, and a utilization factor which takes into account the different class sizes for extra curricular activities and times when the classrooms are not being utilized.

 29 Newly constructed Howard High School opened for students in grades 9-11 for the 2008-2009 school year. Will serve students in
- grades 9-12 in the 2009-2010 school year. Students were redistricted from Central High School and Westside High School.
- 30 One new class added at magnet school

Notes:

All other enrollment fluctuations are due to the transient population in this community.

Pre-Kindergarten classes are moved between sites based on number of applications received.

IV. SINGLE AUDIT SECTION

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Members of the Board of Education of the Bibb County School District Macon, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Bibb County School District as of and for the year ended June 30, 2009, which collectively comprise the Bibb County School District's basic financial statements and have issued our report thereon dated December 16, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Bibb County School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bibb Count School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Bibb County School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Bibb County School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Bibb County School District's financial statements that is more than inconsequential will not be prevented or detected by the Bibb County School District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Bibb County School District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Bibb County School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Bibb County School District in a separate letter dated December 16, 2009.

This report is intended solely for the information and use of the audit committee, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Macon, Georgia December 16, 2009

105

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Members of the Board of Education of the Bibb County School District Macon, Georgia

Compliance

We have audited the compliance of the Bibb County School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2009. The Bibb County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Bibb County School District's management. Our responsibility is to express an opinion on the Bibb County School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Bibb County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Bibb County School District's compliance with those requirements.

In our opinion, the Bibb County School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the Bibb County School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Bibb County School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Bibb County School District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more than remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the audit committee, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF PRIOR YEAR FINDINGS FOR THE YEAR ENDED JUNE 30, 2009

08-1: Under Collateralization of School District Deposits Nonmaterial Noncompliance

Criteria: The Official Code of Georgia (OCGA) Section 45-8-12 (c) requires all depositories of public funds to pledge securities of not less than 110% of the deposited public funds.

Condition: For the year ended June 30, 2008, the School District's deposits held at one financial institution were under collateralized.

Status: Resolved.

08-2: Accounting for Claims Incurred But Not Reported (IBNR)

Criteria: Internal controls should be in place to ensure that an estimate for workers' compensation claims incurred but not reported is properly recorded in the financial statements.

Condition: Internal controls did not detect a misstatement in claims incurred but not reported due to oversight by the School District as part of the year end closeout process.

Status: Resolved
